DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statement filed on 02-04-02 has been considered.

Claim Objections

2. Claims 2, 3, 6, 8, 11, 15 and 19 are objected to because of the following informalities:

A. The limitations "a pressure fit", as recited in line 2 of the claims 2, 8 and 11, should read, "a pressure fit interconnect".

B. The limitations "flexible enclosure", as recited in line 1 of the claim 3, should read, "enclosure".

C. The limitations "glass flow into", as recited in line 1 of the claims 6, 15 and 19, should read, "glass fill".

Allowable Subject Matter

3. Claims 1, 4, 7, 9, 13, 14 and 16-18 are allowed.
4. Claims 2, 3, 6, 8, 11, 15 and 19 would be allowable if rewritten to overcome the objections set forth in this Office action.
5. Claims 5, 10 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if the base claims have overcome the above objections.

6. The following is an examiner's statement of reasons for allowance:

The references of record do not teach either singularly or in combination at least the limitations of an enclosure apparatus comprising a substrate having an aperture through the substrate, a die being disposed within the aperture, a first layer of glass being deposited over the first surfaces of the substrate and the die and a second layer of glass being deposited over the second surface of the substrate and a portion of the second surface of the die and conductive traces being disposed on the first layer of glass such that they couple bonding pads of the die and extend to an outer periphery of the first layer of glass.
